Installation

All apps are available through the Microsoft Marketplace for Business Central extensions/apps. From here you can automatically install the extension and make it available within every company in your Business Central environment. Click on the search icon and type Extension to go to the extension marketplace page.

Search for your app and click on Free Trial. Confirm your details and click again on Free Trial. Your App is getting installed and is visible on the extensions page.

Configuration base application

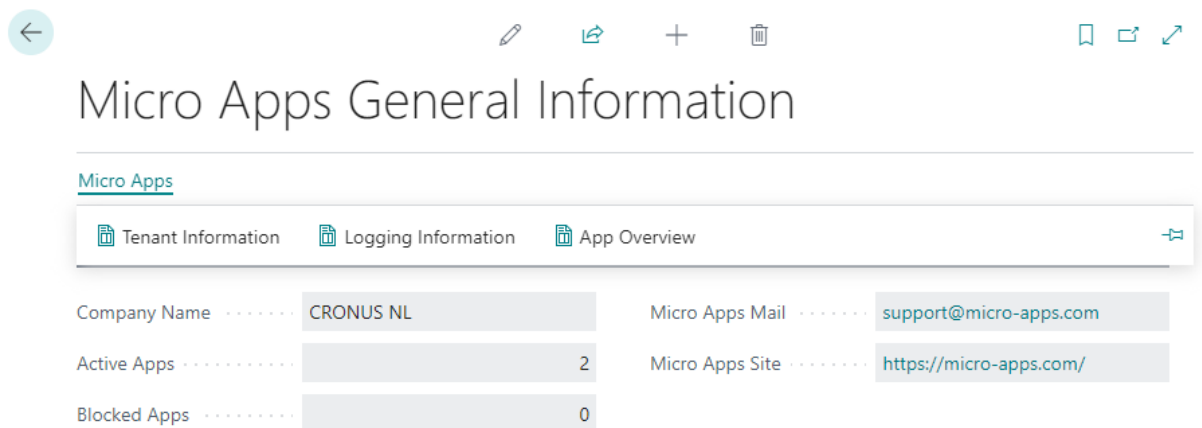

To be able to use the application correctly, you need to make sure that the field “Allowing HttpClient Request” is checked for the Base Application. During the setup you’ll get a message saying to activate this field. If the message did not appear, go to the page “Extension Management” and click on the Base Application by Micro Apps. You’ll see basic information of the app and also the field “Allowing HttpClient Request”. Make sure that the field is checked.

After downloading and installing the application, the setup wizard will automatically show up. During the setup you’ll have to register at Micro Apps.

Registering

Before you can use the application, you’ll need to register. This can be done in the “Tenant Information” page. Navigate to “Micro Apps General Information” and click on “Micro Apps”. You’ll see 3 buttons: Tenant Information, Logging Information and App Overview. To register you’ll need to click on “Tenant Information”.

On the next page you need to fill in your information. After filling in your information, you can click on “Register or Update Tenant Information.” If there’re any changes to the company information, you can fill the fields again and click on the same button. The information will be updated in our systems.

Activating Trial or Subscription

Before you can use the app, we need to activate a trial or subscription before using it. Apps may contain different subscriptions, see <https://micro-apps.com/> for pricing and contract details. By uninstalling one of your apps, don't forget to uninstall it within the base application to stop the billing process. (See the last section to uninstall your app). Go back to the "Micro Apps General Information" page and click on "Micro Apps" and select "App Overview". Select your app by clicking on the app name.

The screenshot shows the 'Banking NL' app card in the 'App Overview' section. The card displays the following details:

General	
Name	Banking NL
Max Usage per Month	499
Start Date Trial	
Price Subscription (E...)	19,00
End Date Trial	10-1-2023
Invoice per	Month

If you want to test our app, you can start a free trial period by clicking on “Start Free Trial”. If you want to start your subscription, click on “Check Subscription Pricing”. Select the subscription that fits your needs and click on “Start/Change Subscription”.

Setup

Once the installation is completed, you'll need to setup the app. This can be done with the Job Queue Manager Wizard. The wizard contains all the necessary steps to complete the setup for the application. It automatically pops up after installing the application from the AppSource.

Job Queue Manager Wizard ↗ ✕

Welcome to the Job Queue Manager setup

This app allows you to run job queue entries in sequence and sends emails when a sequence has finished.

Get Started!

This setup wizard configures the Job Queue Manager app created by Micro-Apps. Choose 'Next' to get started.

Next

Pre-setup

If this is your first time installing a Micro Apps application, then you'll need to register. Click on the "Next" button. You will see the following page. On this page you can register yourself at Micro Apps and activate a trial or subscription.

Job Queue Manager Wizard ↗ ✕

Beforehand - Activate trial/subscription

To use this app, you need to register yourself. If you have not registered yet, click on the 'Register' button, fill in the required information on the page and click on 'Register or Update Tenant Information'.

Tenant Information Registered

To use the this app, you need to start a free trial or subscription. If you have not done this yet, click on 'App Card' and activate a trial or subscription.

App Activated

Click on 'Next' if you have a trial or subscription for this app.

Back Register App Card Next

To register, click on the "Register" button. After registering, you also need to activate the trial or subscription. To activate the trial or subscription, press the "App Card" button. This will take you to the card page of the Job Queue Manager application. When choosing the trial, keep in mind that you can use the app for 2 weeks free of charge. After the trial period, you'll need to activate the subscription. When you've registered at Micro Apps and activated a trial or subscription, the 2 fields in the image above are checked.

Enable Email functionality

The Job Queue Manager can send emails at the end of a Job Queue Package, a sequence of job queue entries. If you do not want to use this functionality you can skip this section and click on “Next”. Otherwise, click on “Set up Email” to setup an email account if not done yet. Follow the new wizard and choose your desired type of email account to add to Business Central.

Job Queue Manager Wizard

Send Emails (optional)

To be able to send emails, an email account needs to be setup. If no account has been setup yet, click on 'Set Up Email' and follow that wizard.

The Job Queue Manager uses the email scenario Notification to send emails. This means that emails will be sent from the email address that has the Notification scenario. If that scenario has not been assigned yet, then click on 'Email Scenario Assignment' and assign the Notification scenario to an email address.

[Set Up Email](#)
[Email Scenario Assignment](#)
[Back](#)
[Next](#)

The app uses the Notification email scenario to send emails. To assign this scenario to an email account, click on “Email Scenario Assignment”. This will take you to the Email Scenario Assignment page. Click on the desired email account and click on “Assign scenarios”. On the new page select the Notification scenario. The email functionality is now set up. Go back to the wizard and click on “Next” to continue.

Permission sets

To be able to use the Job Queue Manager app, users need additional permissions. Users that have the “Super” permission set have sufficient permissions. They will not need any additional permissions. To add the additional permission to other users, go to the “Users” page. You can use the search bar or click on “Open User Overview”.

Job Queue Manager Wizard

Permission Sets

The users of the app need additional permissions to use the app. Users with the 'super' permission set have sufficient permissions.

Set the permissionset

To add the necessary permissions to the user, open the user overview within Business Central. Then select the user who should have access to the app and assign the 'MAJQM Permission' permission set.

[Back](#)[Open User Overview](#)[Next](#)

Go to the user that needs the permission and add the “MAJQM Permission”. This permission set is made during the installation of the application.

Deactivating subscription

To deactivate your subscription, go to “Micro Apps General Information”, click on “Micro Apps” and then on “App Overview”. On this page choose your app.

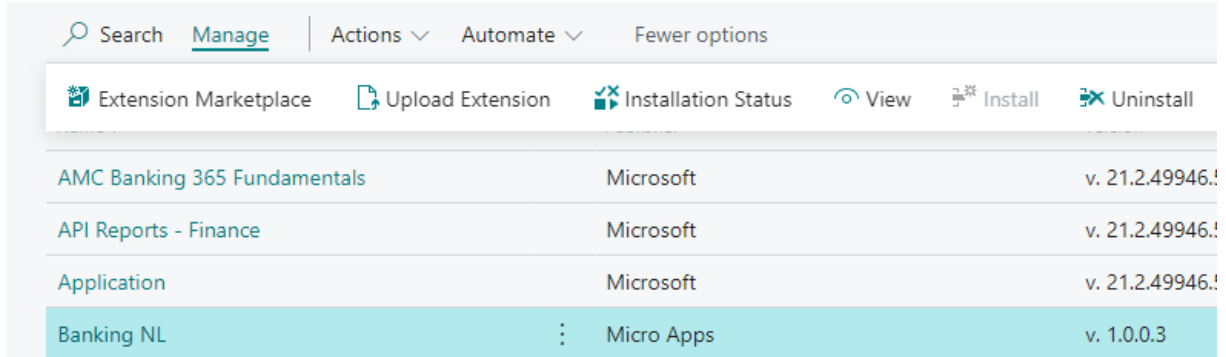

The screenshot shows the 'App Card' for 'Elvy'. At the top, there are navigation icons: a back arrow, a pencil icon, a share icon, a plus sign, and a trash icon. On the right, there is a 'Saved' status and a refresh icon. Below the app name 'Elvy', there are two tabs: 'Start Free Trial' and 'Check Subscription Pricing'. To the right of the tabs are 'Automate' and 'Fewer options' options. The main content area is titled 'General' and contains a table of subscription details:

Name	Elvy	Max Usage per Month	8999
Start Date Trial		Price Subscription (E...)	280,00
End Date Trial	3-1-2023	Invoice per	Month
Subscription Descript...	8000 to 8999	Trial	<input type="checkbox"/>
Start Date Subscription	3-1-2023 09:56	Blocked	<input type="checkbox"/>
End Date Subscription	3-1-2024 09:56	Terminate Subscription	<input checked="" type="checkbox"/>
Terminate Before Date	3-10-2023	App Deleted	<input type="checkbox"/>
Usage Current Month	9	More Information	https://micro-apps.com/elvy-a...

On this page you'll see a field called “Terminate Subscription”. Check this field to deactivate your Subscription. At the end of your subscription date the app will be blocked. During the period of when you've checked this field and the end of your subscription date, you can change your mind by unchecking the field. **Be aware of the fact that 3 months before your subscription end, you cannot change this field.** If the field is checked, you'll need to make a new subscription. If the field is not checked, your current subscription will extend by 1 year.

Uninstalling

To uninstall your app, you can follow the default step of Business Central to uninstall. Go to “Extension Management” and choose the app that you want to uninstall. Next click on “Manage” and then “Uninstall”.

Search <u>Manage</u> Actions ▾ Automate ▾ Fewer options		
Extension Marketplace	Upload Extension	Installation Status
View	Install	Uninstall
AMC Banking 365 Fundamentals	Microsoft	v. 21.2.49946.3
API Reports - Finance	Microsoft	v. 21.2.49946.3
Application	Microsoft	v. 21.2.49946.3
Banking NL	Micro Apps	v. 1.0.0.3

A new screen will open and Business Central will ask you if you want to delete the extension data. To completely uninstall the app, check this field.
