

The Digital Neighborhood Expands Microsoft Dynamics 365 Expertise with Acquisition of ABC E BUSINESS

9 July 2024, Amsterdam, The Netherlands: [The Digital Neighborhood](#), a community of European tech companies specializing in Microsoft AI and Cloud, announces the acquisition of [ABC E BUSINESS](#) from [Montes Investments](#). The move strengthens the tech Group's Dutch market position in Microsoft Dynamics 365 Business Central as well as its ability to serve mid-market segments in the North European market.

ABC E BUSINESS enhances The Digital Neighborhood's [Business Management Solutions Practice](#), which includes sister companies, [GAC Business Solutions](#), innovators in ERP software for the trade sector, with its TRADE365 product and [Focus Enterprise Solutions](#), experts in Supply Chain and Financial Operations. The synergy with GAC Business Solutions will boost service value through shared expertise, while the combined offerings of ABC E's Productivity Suite and Banking App with GAC's TRADE365 and PSA365 promise a comprehensive suite for a variety of industry needs, particularly in the fast-evolving AI space. Together, they will deliver comprehensive services across Microsoft Dynamics 365 applications, ensuring a unified approach to enterprise resource planning and customer management.

The acquisition promises substantial benefits for clients and employees alike. Clients will enjoy improved service capabilities and a broader suite of products, while employees of ABC E BUSINESS will have access to greater career opportunities and the ability to influence larger projects within The Digital Neighborhood.

Jean-Yves Charlier, CEO of The Digital Neighborhood, said, "Welcoming ABC E BUSINESS into our Neighborhood is another strategic step in our growth journey, strengthening our position as a leading Microsoft AI and Cloud provider in Northern Europe. This acquisition deepens our expertise in Microsoft Dynamics 365 solutions and enhances our service offerings to our 2,400 customers with AI-enabled technology that streamlines business processes, improves customer interactions, and supports growth."

ABC E BUSINESS will become part of The Digital Neighborhood's Business Management Solutions Practice. The addition complements the group's other specialized areas within [Cloud Infrastructure & Security](#), [Cloud Consultancy & App Development](#) and [Data Science](#). Together, the Group's four Practices encompass 1,350 consultants, engineers, and specialists, serving over 2,400 customers across Northern Europe.

Ends.
